### ***Training on The Charities Governance Code***

Are you in the process of registering as a charity or intend to register as a charity in the future?

The Charities Governance Code is a mandatory compliance obligation for Charities. This Code sets out a mandatory standard for governance in Irish charities. We will be running a **free training session for our members on the Charities Governance Code**, which will be delivered by Carmichael.

This workshop will walk you through the requirements of the code including actions and evidence needed to demonstrate compliance. If your organisation has already started or completed the Governance Code for Community, Voluntary and Charitable organisations, it will help you to use the evidence you already have to comply with the new Charities Governance Code.
